Subject: Objection to Mandated Insurance Coverage of Contraceptive and Avortifacients
Date: Monday, August 08, 2011 1:21:34 PM

I am opposed to the definition of "religious employer" within the context of a lack of true conscience protection! It is critical that all voices of conscience be heard and protected specific to important and widespread policy decisions. Respect for conscience is essential and its protection should be granted for not only religious employers, but for all employers, insurers, and policy issuers with moral, ethical, or religious objections as well.
